

Broadband Service Inventory by Platform

Advertised Speeds of at Least
25 Mbps Download and
3 Mbps Upload for Fixed,
Non-Mobile Service

Osceola County
Michigan

Published
July 31, 2018

Data displayed on this map is developed from a combination of direct provider outreach and data collection, FCC Form 477 filings, State Broadband Initiative datasets, and independent research conducted by Connect Michigan. As such, broadband availability at an exact address location cannot be guaranteed. Satellite broadband services may also be available.

Symbology

In areas where multiple broadband providers offer service, this platform composite map stacks coverage display layers in the order presented below.

- Interstate
- US Road
- Local Road
- Municipal Boundary
- County Boundary
- Water
- National/State Land
- Fiber Broadband
- Cable Broadband
- DSL Broadband
- Fixed Wireless Broadband
- Unserved Fixed Non-Mobile Area

Mobile broadband areas are not included in this map. While many areas have mobile speeds of at least 25 Mbps download and 3 Mbps upload, advertised speeds for LTE service are not reliable or always available, and not all spectrums used for LTE reach the speed threshold.
