

# EMPLOYEE TECHNOLOGY SKILL GAPS IN THE GREAT RESIGNATION

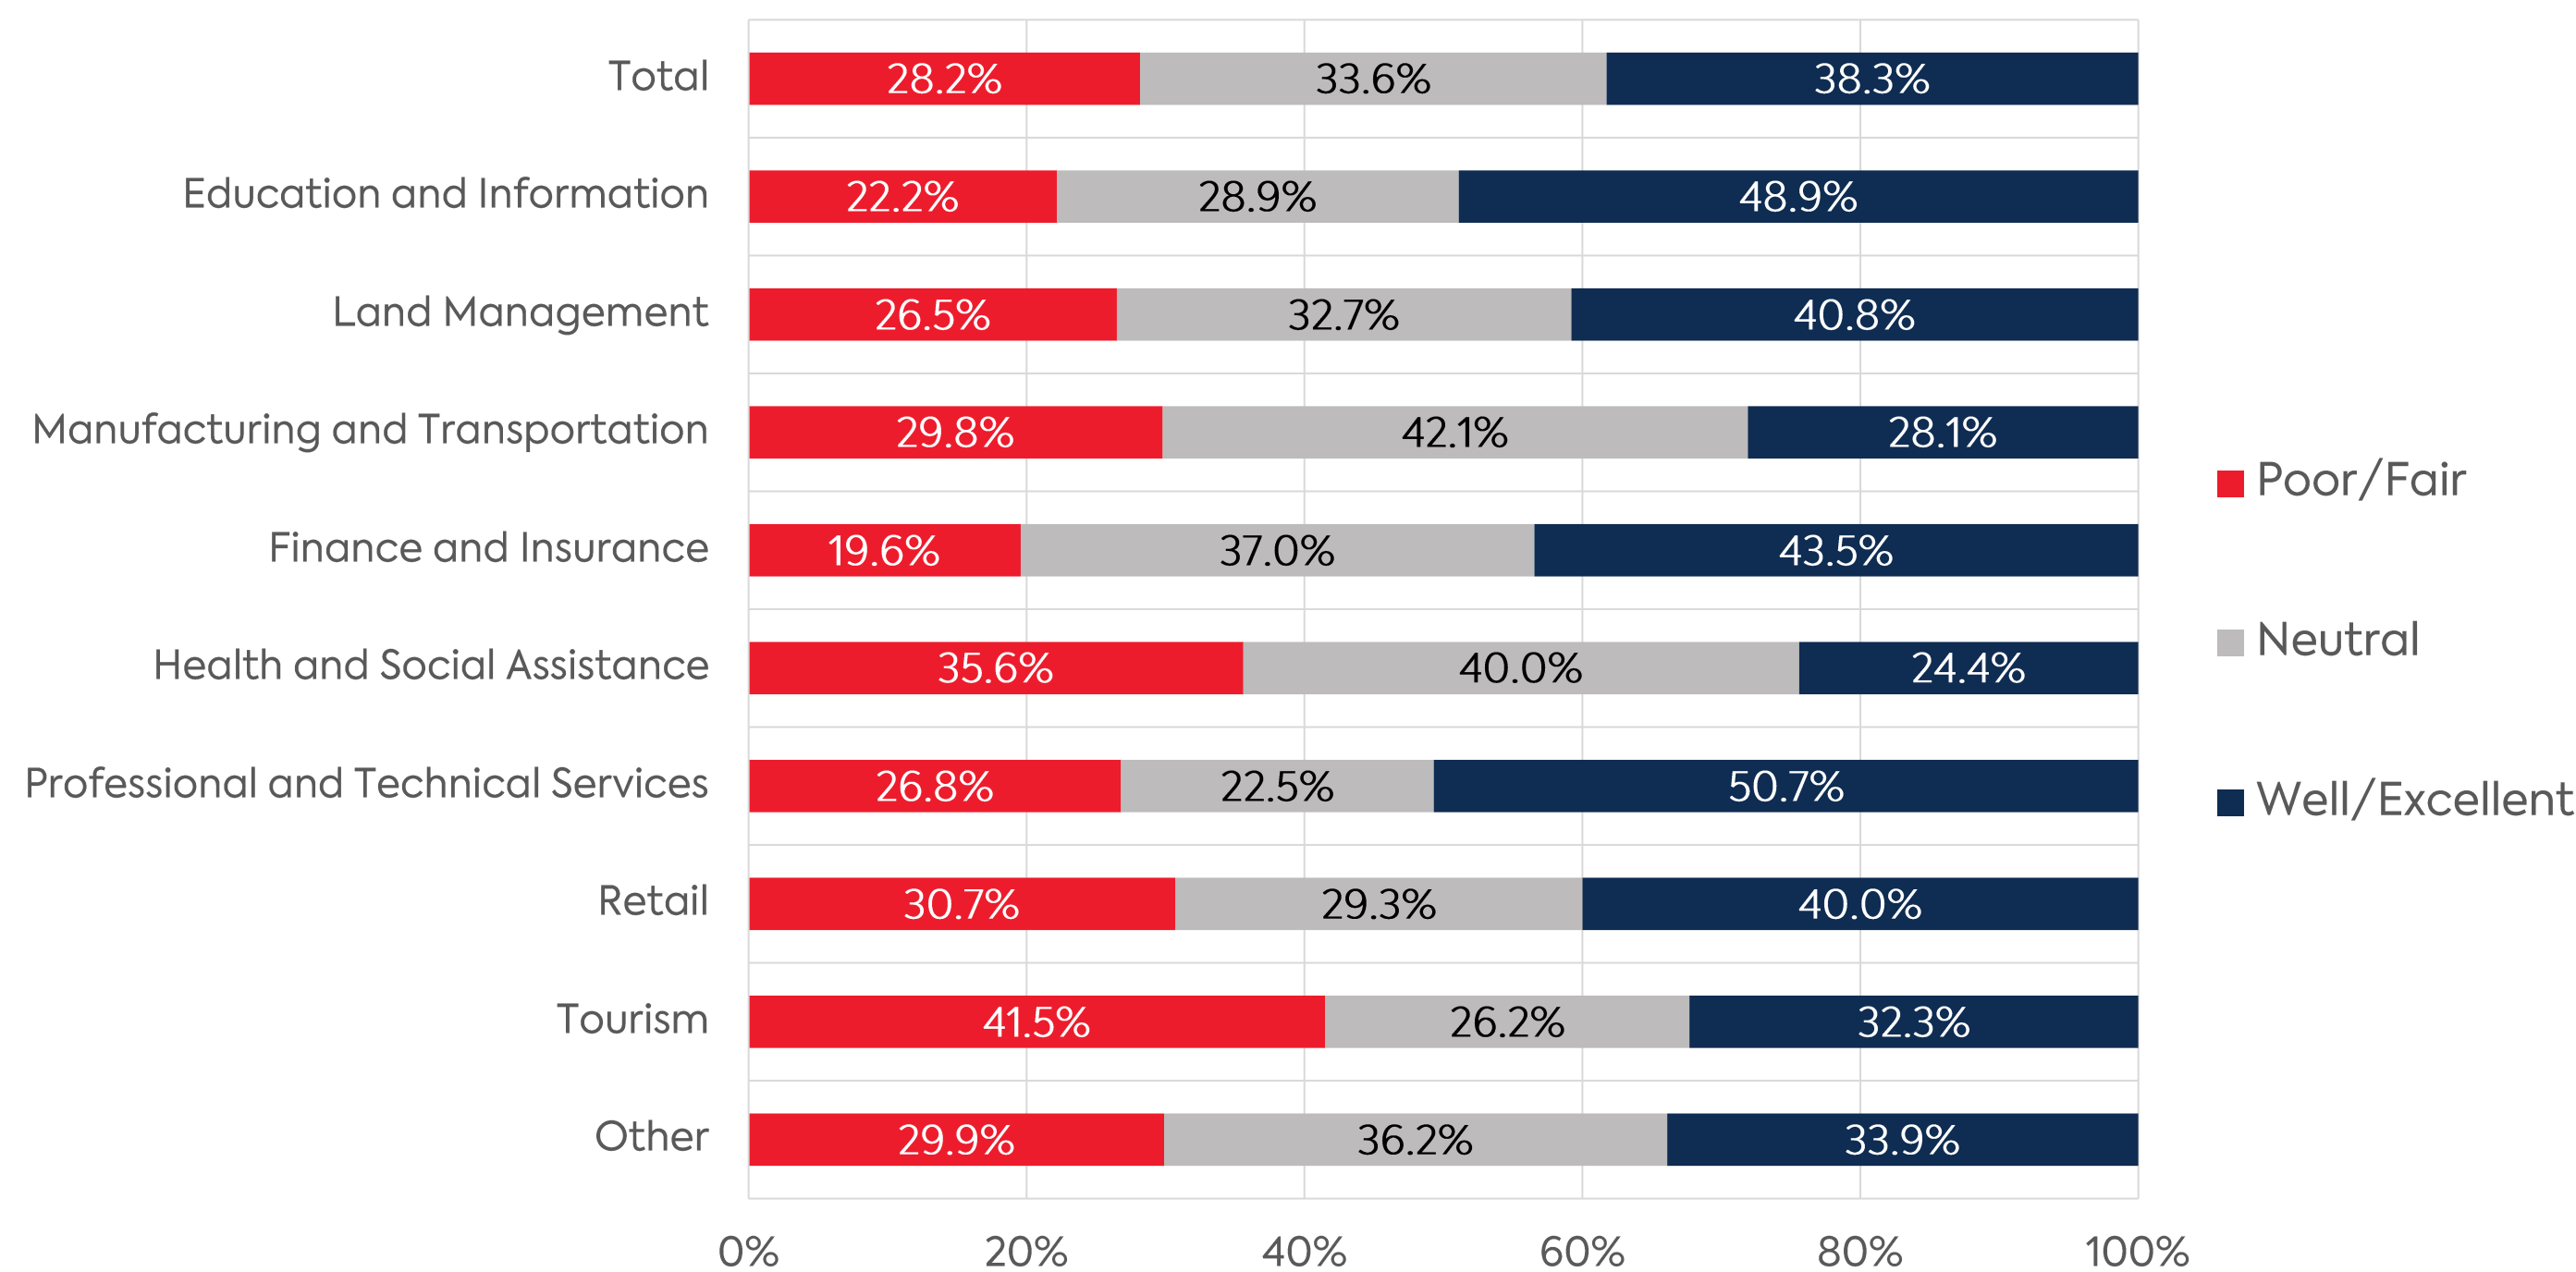

## Research Question

What factors influence whether the technological skills of a business's employees match the technological needs of the business?

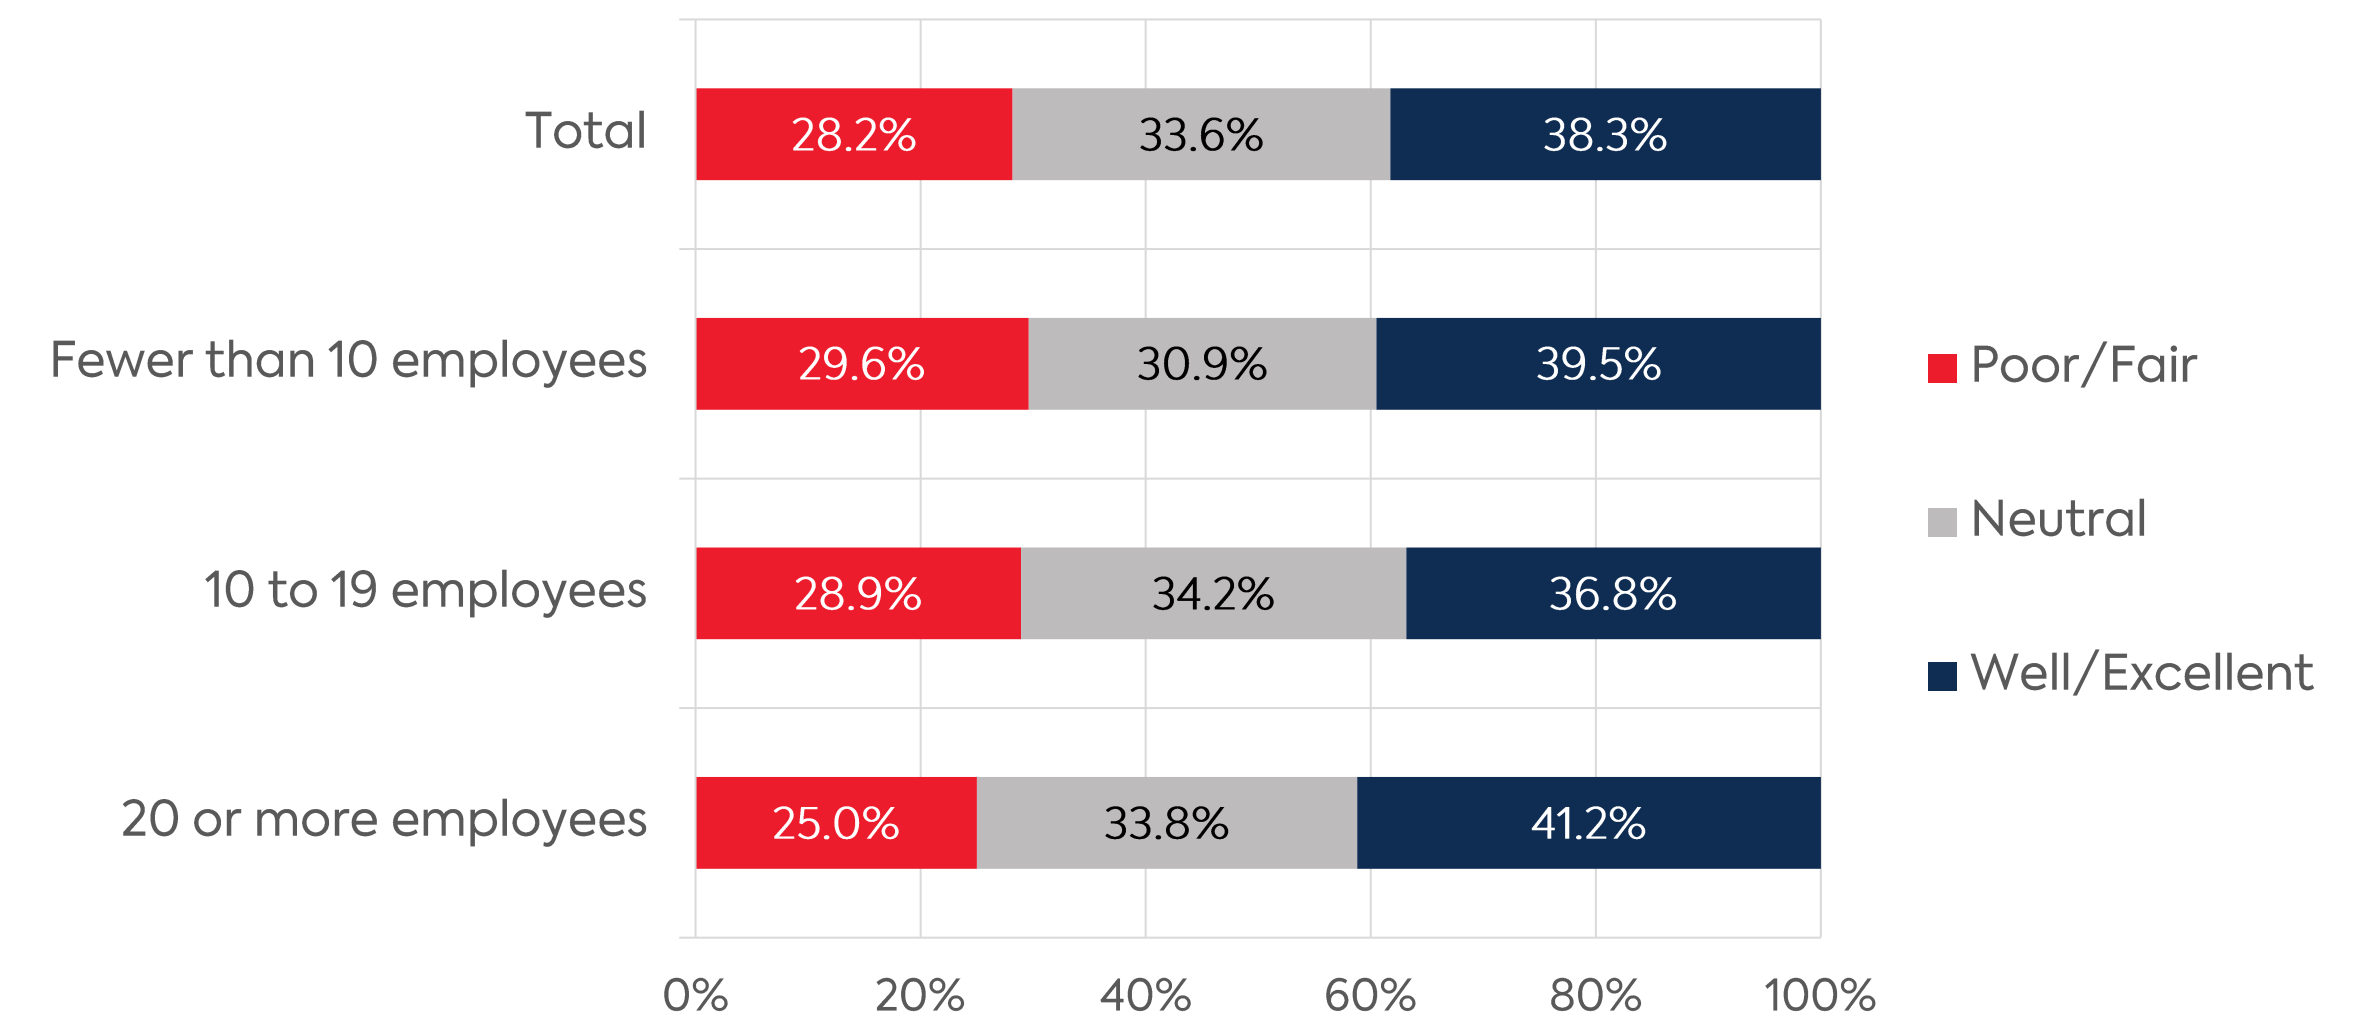

## Methodology

Connected Nation surveyed 959 businesses across multiple communities in Texas, Michigan, and Ohio during the period dubbed "The Great Resignation" (February 2021 to February 2022). Businesses self-selected into taking the survey, and all measures represent self-reported information and perceptions.

Employee Skill Match by Sector
